VOLUME 15, ISSUE 1

JULY 2017

1,25,000 Square Feet Factory Flooring for Agricultural Implements at Dewas, MP

1,25,000 Sq. Ft. Factory Flooring at Dewas, MP.

A heavy duty factory flooring of 1,25,000 square feet was constructed using Hybrid Fibre Technology consisting of SHAKTIMAN® Steel Fibres MSCF 50 along with Glass Fibres

The company is a part of the CBM Group of Italy that has over 40 years experience and is leader in the design, manufacture and supply of OEM systems for lifting, moving and towing of agricultural implements. An ISO 9001 company, it specializes in systems for coupling, towing and lifting implements for agricultural and construction equipments for all ranges and horsepower from 20-100HP Tractors.

The mission of the group is to optimize the performance of agriculture implements through the design and production of lifting, moving and towing components for agriculture tractors, With constant aim of producing a quality product whose performance is reliable and safe. The aim of the group is to:

- Widen and develop its product range
- Improve service to customers
- Research and develop new technologies and materials.

The clear objectives are GROWTH & IMPROVEMENT ALWAYS..

Factory flooring using Hybrid Fibre Technology with SHAKTIMAN® MSCF 50 along with Glass Fibres

Residential Complex Parking & Internal Road, Pune

Luxurious Residential Complex at Kothrud, Pune has used **SHAKTIMAN® Steel Fibers** for reinforcement in construction of their Internal Road and Parking Area. The project was completed using **SHAKTIMAN® MSH 10050 Steel Fibers**.

This luxurious project is an example of modern architectural fashion but also appeals to everyone's sensibilities. The units offer ample free spaces for wind and natural light. The project is located in one of the most sought after localities of the city in Kothrud. Experience the plush style of units blend with quality and comfort makes each owner feel that their home is a prized possession.

The amenities include a Plush Lobby, a beautiful Temple, Multi-level Mechanised and Covered Car Park, Water Body, Rain Water Harvesting, Premium Quality Solar Panels. Added features include a Yoga Hall on the 7th Floor and Fully Air-Conditioned Club House-cum-Gymnasium. The terrace has a Tantalizing Swimming Pool and Amphitheatre.

“SHAKTIMAN®
Steel Fibers make work easy for the contractors using RMC as it can be easily mixed and poured directly on site, spreads faster and gives even finish.”

SHAKTIMAN® STEEL FIBRES used at Jain Mandir-Ramtek, Nagpur

SHAKTIMAN® MSCF 25 Steel Fibers along with Glass Fibers were used for Hybrid FRC Flooring outside an upcoming Jain Temple at Ramtek on 12,000 sq. ft. area. The area constructed is going to be used as a common area for gathering and prayers in the periphery of the temple.

18,000 sq. ft. Expansion of Manufacturing Unit, Butibori (Nagpur)

Expansion of 18,000 sq. ft. of this flagship enterprise who specialize in complete substation structures and single, double and multi circuit towers up to 765KV to steel angles, TMT and flats, with expertise in rolling beams and channels as well, and the variety of products ensure a wide supply for construction purposes. **SHAKTIMAN® Steel Fibres MSCF 50 (Hybrid)** were used.

15,000 sq. ft. SFRC Industrial Flooring (Textile) at Amravati, Maharashtra

A 15,000 square feet area was recently constructed for the flooring of Industrial Floor for a textile unit in the cotton rich area of Amravati in Maharashtra. **SAKTIMAN® Steel Fibres MSCF 50 (Hybrid)** were used for this . The flooring was done by traditional method by using a site hand mixer.

The company boasts of an Ultra Modern set up equipped with contemporary machines sourced from most reputed suppliers for across the globe with eco-friendly machines, a

State-of-the-art R&D Lab with auto dispensing facility, Online Q&A at each stage of operation, Complete ERP integration with machines, product and manpower. High Level of Automation on material movement is practiced in fields of Dye Dispensing, Chemical Dispensing, Physical movement of material by tow trucks and Coal Handling Plant.

SHAKTIMAN® MSCF 50 was used with Tremix Technology
