OCTOBER 2017

INFRACON 2017: International Conference on Innovations in Concrete for Infrastructure Challenges, Nagpur

LEFT:
Mr. Shiraz K. Doongaji being Felicitated by ICI at INFRACON 2017 held on 6th & 7th October at Hotel Centre Point, Nagpur
BELOW:
Team of Stewols explaining Fibre Reinforcement Technology to guests.

INFRACON 2017 was organized under the aegis of ICI Nagpur Chapter considering the crucial importance of infrastructure development for the Indian Economy and aptly coining the focus of the program as "Innovations in Concrete for Infrastructure Challenges". The government has doubled the investment in 12th five year plan (2013-18) by infusing Rs. 12.28 lakh crore .

India is currently facing the uphill task of building and modernizing her infrastructure, involving planning & construction of Highways, Expressways, Bridges, Airports, Ports, Metros & Mono Rails, Power Projects & Irrigation facilities etc. Beginning with the National Highway Development Program involving construction of Golden Quadrilateral & East-West-North-South Corridors.

Head Quarters of Construction Co., Pune

Head Quarters of this prestigious construction company based in Pimple Saudagar area of Pune was constructed using **SHAKTIMAN® Steel Fibers** for reinforcement. The project was completed using **SHAKTIMAN® MSH 10050 Steel Fibers**. This start up company is bursting with enthusiasm and implementing newer technologies to enhance their prestigious projects in glamour and quality alike.

12,000 sq. ft. Cotton Ginning Factory Flooring, Nagpur

“SHAKTIMAN®

Steel Fibers

Reduce the

trouble of

maintaining

excess labour for

tying of mesh”.

SHAKTIMAN® MSCF 50 Steel Fibers were used in the construction of this Heavy Duty Industrial Floor . The dosage was decided at 15 kgs of steel fibers per cubic meter of concrete to provide suitable reinforcement. The entire project was spread on an area of 25 Acres on the whole where only a small portion has been taken up for construction to start with leaving more area for expansion at a later date.

Coal Storage Warehouse at Lihigaon, Maharashtra

8,500 sq. ft. of Warehouse Flooring has been constructed using SFRC technology at Lihigaon, near Nagpur (Maharashtra) **SHAKTIMAN® Steel Fibres MSCF 50 (Hybrid)** were used along with Glass Fibres for reinforcement.

The Warehouse was constructed for storage of Coal. Site hand mixer was ideally suited for this project. With quick setting time, the client was able to start using his premises without wasting additional days as required for traditional construction practices.
